

KEY USE CASE

ACCELERATE APP DEVELOPMENT

Let your devs focus on innovation

“WE TOOK A PROCESS THAT TOOK DEVS ABOUT 48 CUMULATIVE FTE HOURS A WEEK, DOWN TO ABOUT THREE OR FOUR MINUTES WITH SECURITY BUILT-IN.”

- Hybrid Cloud Services Owner, Global IT Consultancy

THE CHALLENGE

DEVELOPERS SPEND A FIFTH OF THEIR TIME ON TOOLS AND INFRASTRUCTURE

With new infrastructure and technology readily available, organizations are finding their developers spending more time configuring and managing tools and environments, rather than driving innovation. And that's the problem!

WATCH A SHORT VIDEO 

THE SOLUTION

ENABLE DEVS TO FOCUS ON THE WORK THAT MATTERS

With CloudBolt the hours devs spend on infrastructure becomes minutes. They no longer have to learn new tools and can still use their favorite applications to get the work done. CloudBolt allows devs to focus on what they do best: innovate.

-  Infrastructure in minutes not days or weeks
-  Preemptive testing of CI/CD pipeline
-  Share what works, so others work faster
-  Security and governance built-in
-  No expertise required
-  Accelerate the adoption of ANY tool

“

Suddenly I can offer an engineer productivity! Where it used to take them roughly 40 hours to build up a system to overlay their tools, **I deliver all of that in minutes with CloudBolt.**”

- Sr. Director, IT Operations,
Global Industrial Manufacturer

ABOUT US

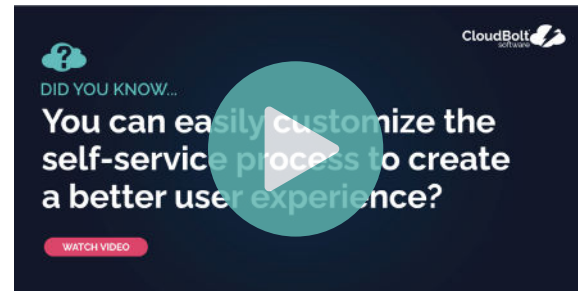

IT TAKES A **FRAMEWORK**

CloudBolt offers a comprehensive, award-winning cloud automation, visibility, and governance framework specifically built to stitch together your disparate multi-cloud, multi-tool, multi-team world and bring order to your infrastructure chaos. CloudBolt has systematically built capabilities that benefit everyone across an enterprise – ITops, DevOps, SecOps, and FinOps – by enabling:

- Clarity into multi-cloud spend with robust reporting that enables real optimization
- Self-service IT that truly is automated (no expertise required)
- Guardrails for better governance that ensure compliance and increase your security posture
- Reusability of proven best practice elements, blueprints, and code, stop reinventing the wheel across teams

Our framework allows you to unify and simplify – today and tomorrow. Future-proof your cloud strategy with CloudBolt.
